

SMART WASTE BIN

Product Brochure | September 2018

Bin-e

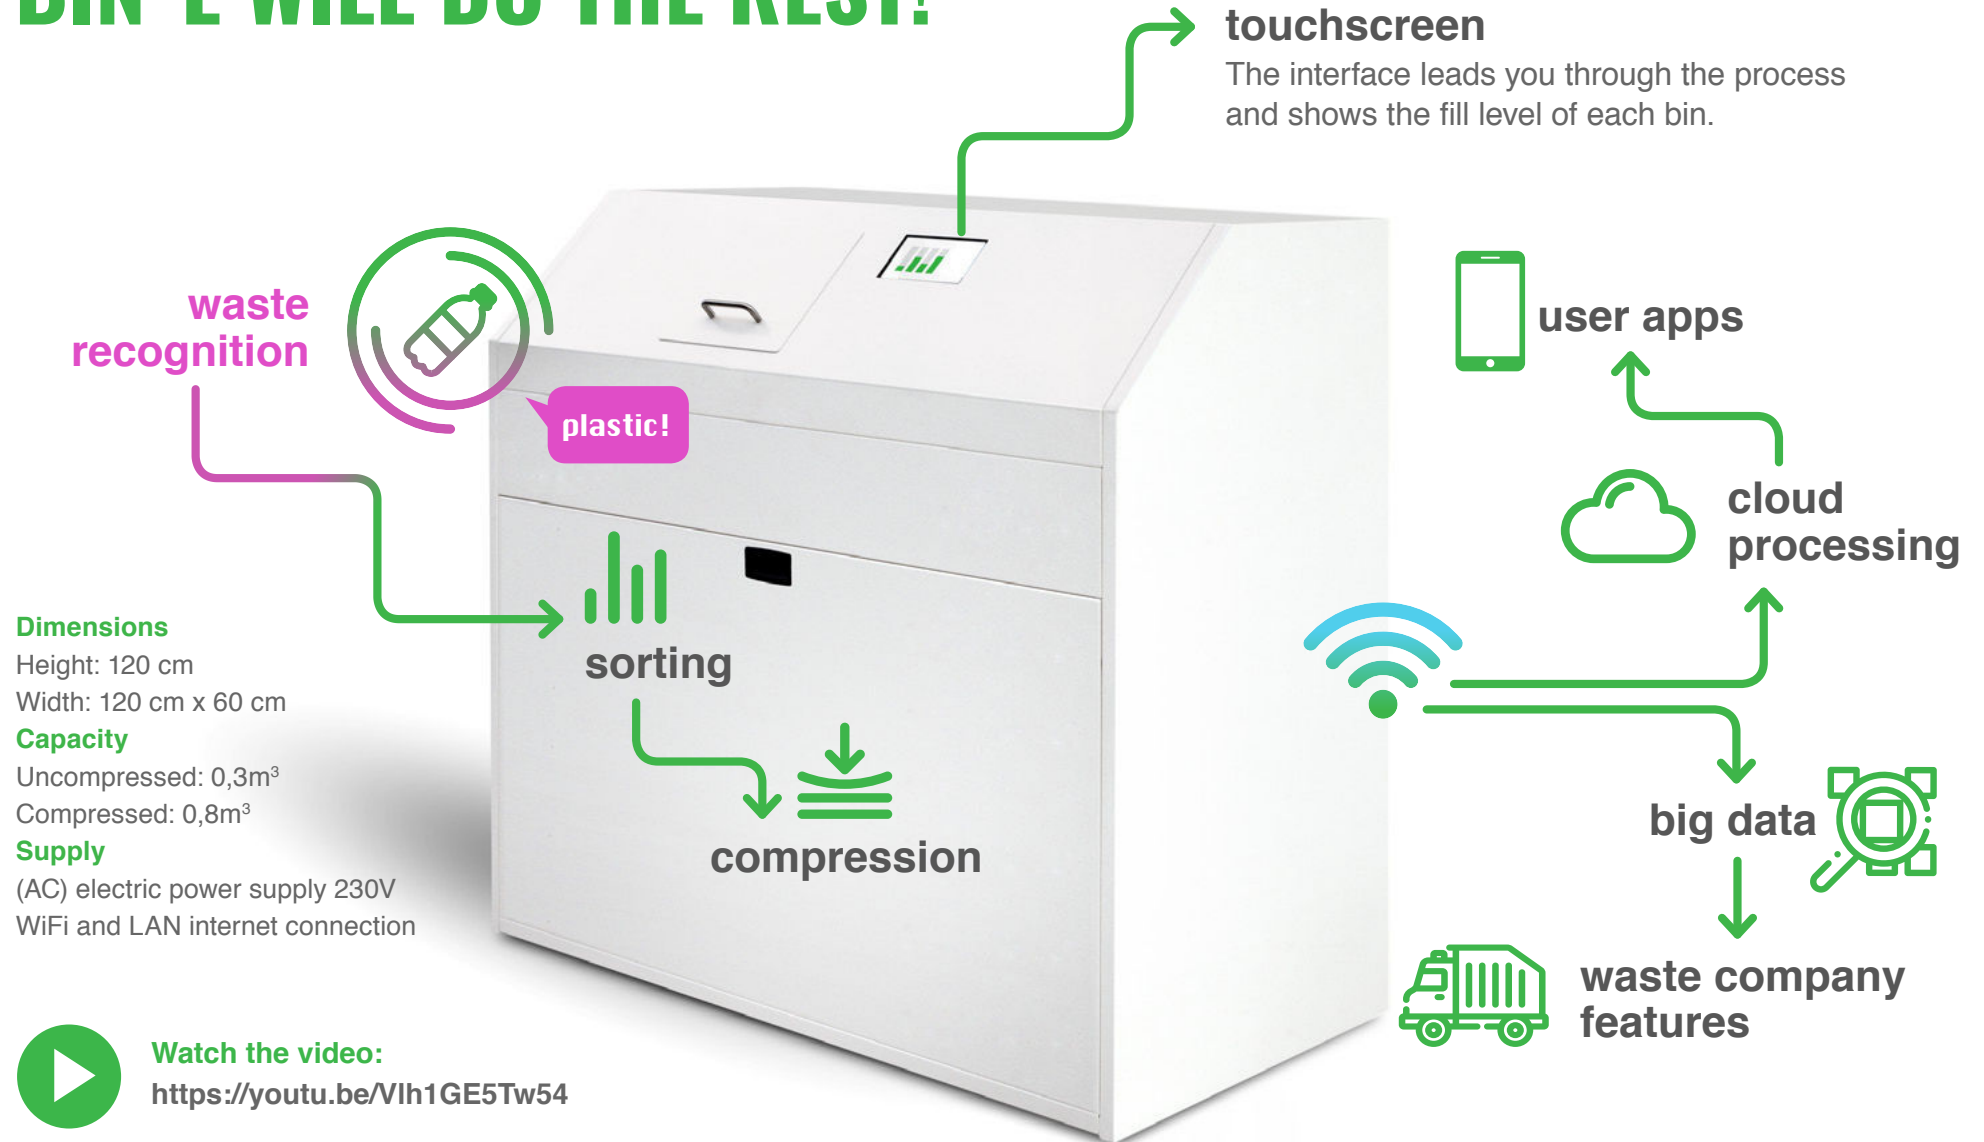

SORT IT OUT. OR LET BIN-E DO IT FOR YOU.

Bin-e is a unique IoT device equipped with the most advanced technology. It provides a sustainable solution for simple and effortless recycling in every eco-friendly workplace.

Bin-e

JUST PUT THE WASTE INSIDE. BIN-E WILL DO THE REST!

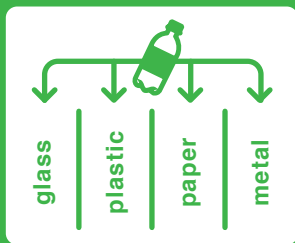

Watch the video:
<https://youtu.be/Vlh1GE5Tw54>

HOW DOES IT WORK?

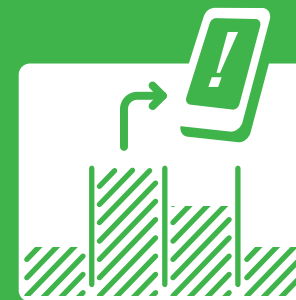

waste recognition

waste sorting

waste compression

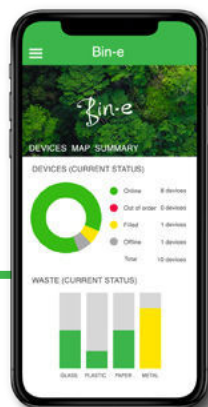

fill level control

logistic optimization

GET CONTROL WITH THE APP!

The **client app** gives you access to all your devices. You can check level of each bin, summary statistics and real-time data.

The **management app** shows you a list of all devices. You can connect devices with your customers.

WHAT'S IN IT FOR YOU?

FOR EMPLOYEES

- fast and easy sorting
- eco-friendly attitude

FOR COMPANY

- more sustainable business
- eco-friendly office space
- reduced waste removal costs
- becoming the pioneer among green companies

FOR FACILITY

- reduced costs, time and frequency of waste disposal
- control waste management within the building
- additional income - ask us to find out more!

BENEFITS FOR THE ENVIRONMENT

INCREASED RECYCLING RATE
